

To ensure emails are sent without being caught in your organization's SPAM filter please have your IT department whitelist the following.

- 192.40.179.129 = mailer129.gate179.sl.smtp.com
- 192.40.179.130 = mailer130.gate179.sl.smtp.com
- 192.40.179.131 = mailer131.gate179.sl.smtp.com

Depending on your organization's ePledge email customization and security settings you may need to ask your IT Department to temporarily modify your anti-spoofing email rules.
